

Please enter my name to support the rejection of NAB's petition 04-160. My subscription to satellite radio has been the best thing to happen to broadcasting in my lifetime. Please do not take away the freedom that subscription radio provides to me. In this day of freedoms being stripped from the media, I need a venue that is free from edit and censure by virtue of the fact that I am a paying member and willing to listen and not listen as I so choose. Don't take it away!
